TRAIN TICKET QUICK CARD

Situation	What to do
Book a train	Use the official Uzbekistan Railways e-ticket site: eticket.railway.uz .
Passenger details	Enter passport details exactly as shown in the document you will use.
Payment	Official guidance lists Visa, Mastercard, Apple Pay and Google Pay among accepted methods.
Domestic e-ticket	Current railway guidance says a printout is not required for domestic travel. Save the ticket/QR locally.
Afrosiyob sold out	Search the same route again and compare other passenger trains before changing your whole itinerary.
International train	Rules differ: some interstate e-tickets must be exchanged for a paper ticket at a station office.

For popular Tashkent - Samarkand - Bukhara dates, check Afrosiyob as soon as your travel date becomes bookable. Do not rely on station mobile data to open your ticket.

AT THE TICKET DESK

Мне нужен билет до Самарканда, пожалуйста.

I need a ticket to Samarkand, please.

Russian is often useful in travel situations. Keep the city name and travel date visible too.

REGISTRATION & PHONE

HOTEL REGISTRATION	Foreign visitors generally must register their place of stay within three working days. Hotels normally do this for guests. Keep the confirmation and re-check the rule if you change to private accommodation.
LOCAL SIM / IMEI	UZIMEI says a device used with a local Uzbek operator SIM must be registered within 30 calendar days after the first network event. A foreign SIM used in roaming is treated differently and is listed as free of IMEI registration.
IMEI NUMBER	Dial *#06# before you need it. If you plan a longer stay with a local SIM, check uzimei.uz before the 30-day window.
PASSPORT COPY	Keep a secure offline copy of your passport details, but do not rely on a copy where the original document is required.

ARRIVAL & MONEY

- Currency: Uzbek soum (UZS).
- Cards are increasingly useful in cities, but keep cash for small businesses, markets and payment failures.
- USD/EUR are useful for exchange, not as a substitute for soum in normal day-to-day payments.
- For Tashkent airport, save your hotel address and Yandex Go destination before landing. If the app will not connect, use an official taxi option and confirm the fare.
